PROFESSIONAL SUMMARY

Frontend Developer with practical project experience building responsive web applications using React.js, JavaScript (ES6+), HTML5, and CSS3. Skilled in developing reusable UI components, integrating REST APIs, and implementing JWT-based authentication. Comfortable managing application state using React Hooks. Strong problem-solving mindset with a solid foundation in the MERN stack, and eager to grow as a Frontend / React.js Developer in a collaborative team environment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, React Router, Responsive Web Design, Bootstrap, Tailwind CSS

State Management: React Hooks (useState, useEffect)

Backend (Basic): Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB

Tools: Git, GitHub, VS Code, Postman, Vercel

PROJECTS

Hospital Management System | *React.js, React Router, Node.js, Express.js, MongoDB, JWT*

- Developed a full-stack hospital management application using the MERN stack, covering patient registration, doctor management, and appointment booking.
- Designed and implemented role-based access control (RBAC) with separate Admin, Doctor, and Patient dashboards for role-specific access.
- Implemented JWT-based authentication and protected routes using React Router to restrict access to authorized users.
- Built RESTful CRUD APIs for patient records, doctor profiles, and appointment scheduling.
- Developed reusable React components across the Admin, Doctor, and Patient portals.
- Designed a responsive UI to support usability across desktop, tablet, and mobile devices.

Expense Tracker – Finance Dashboard | *React.js, React Hooks, Node.js, MongoDB*

- Built a finance dashboard application using React.js and MongoDB to track income and expenses.
- Implemented CRUD operations allowing users to add, edit, and delete transactions.
- Displayed expense data using a chart-based summary to show spending by category.
- Designed MongoDB schemas to store and organize transaction data.
- Managed application state using React Hooks (useState, useEffect).
- Designed a responsive dashboard layout for desktop and mobile devices.

Portfolio Website | *HTML5, CSS3, Bootstrap*

- Designed and developed a personal portfolio website using HTML5, CSS3, and Bootstrap to showcase projects and technical skills.
- Implemented a mobile-first responsive layout using the Bootstrap grid system.
- Built UI components following semantic HTML practices to support accessibility.
- Tested the website across multiple browsers and devices to verify consistent layout and functionality.
- Designed a clean UI layout with simple, intuitive navigation.
